JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

FOREIGN AND INSULAR.

SMALLPOX ON VESSEL.

U. S. S. "Mississippi"—Canal Zone.

Under date of February 18, 1921, 12 cases of smallpox were reported on the United States battleship *Mississippi*, in the Canal Zone. To February 20, 1921, a total of 22 cases was reported.

CHINA.

Plague—Harbin and Surrounding Country.

On February 2, 1921, 15 fatal cases of pneumonic plague were reported in Harbin, Manchuria Province, China. On February 7, 1921, 400 fatal cases were reported in the country west of Harbin, and on February 14, 1,200 fatal cases were reported.

Plague Rats—Shanghai.

Information dated January 14, 1921, shows the reappearance of plague-infected rats at Shanghai, China. Two plague rats were found December 20 and 31, 1920, respectively, in the shipping district. One rat was found in close proximity to the South Manchurian Railway Co.'s wharf. The settlement was stated to have been entirely free from plague-infected rats during the past four years.

CUBA.

Communicable Diseases—Habana.

Communicable diseases have been notified in Habana as follows:

Disease.	Jan. 21-31, 1921.		Remain- ing under treat- ment Jan. 31, 1921.	Disease.	Jan. 21-31, 1921.		Remain- ing under treat- ment Jan. 31, 1921.

Guantanamo—Quarantine Against Ports in Cuba, Haiti, and Jamaica.

According to information dated January 25, 1921, the United States naval commander at Guantanamo, Cuba, has declared quarantine against ports in Cuba, Haiti, and Jamaica on account of smallpox.

JAMAICA.**Infectious Disease (Alastrim or Kaffir Pox).**

During the week ended January 29, 1921, 266 new cases of alastrim or Kaffir pox were reported in the island of Jamaica.

MADAGASCAR.**Influenza.**

During the month of December, 1920, epidemic influenza was declared present in the island of Madagascar as follows: Comoro Province (Comoro Islands); Majunga Province, in town and district of Majunga and town and district of Marovoay.

PERU.**Further Relative to Yellow Fever—Lambayeque.¹**

Information dated February 1, 1921, shows that the outbreak of yellow fever in Lambayeque Department, Peru, reported January 22, 1921, occurred early in the month of January at Ferrenafe. One case was reported at Lambayeque City.

On February 16, 1921, yellow fever was reported present at Eten, a port in Lambayeque Department.

PORTO RICO.**Plague—Plague Rats—San Juan.**

Information was received, February 19, 1921, of an outbreak of plague at San Juan, Porto Rico, with three reported cases occurring in the same house. One case was reported confirmed February 18, 1921. To February 22, 1921, a total of four cases of plague with one fatality was reported. The finding of 13 plague-infected rats out of 261 rats examined was reported as follows: Six rats found in Tetuan Street, where the three cases of human plague first reported developed, three rats at the Army crematory, one at the old custom store house, one at the Marina, one in Santurce, and one in Puerta de Tierra.

Measures Ordered for Outgoing Vessels.

The United States Public Health Service representative at San Juan was instructed to institute fumigation, rat guarding, and fending off of vessels proceeding from San Juan to ports in the United States and to note on bills of health the action taken.

Quarantine of Vessels Arriving from San Juan.

Vessels arriving at ports in the United States from San Juan, if bills of health indicate noncompliance with service requirements at that port, will be held in detention and fumigated throughout if empty. If loaded, superstructure only will be fumigated, provisional pratique issued, and vessel again fumigated throughout on discharge of cargo.

¹ Public Health Reports, Jan. 28, 1921, p. 152.

TRINIDAD.

Epidemic Influenza—Port of Spain.

Influenza in epidemic form was reported present, January 26, 1921, in Port of Spain, Trinidad, with a large number of cases, and to be spreading to the country districts. The type of the disease was stated to be mild.

UNION OF SOUTH AFRICA.

Plague—Orange Free State.

The occurrence of a case of plague in the Hoopstad district, Orange Free State, Union of South Africa, was reported during the week ended December 4, 1920. The case occurred in a European employed on the Vryheid farm, 60 miles from the Angra Pequena farm, on which 8 cases of plague with 3 deaths occurred in April, 1920. It is suspected that the infection is being perpetuated and spread by wild rodents. To December 18, 1920, two additional cases, one fatal, occurring in natives, were reported.

An outbreak of plague was reported in the Hoopstad district, Orange Free State, in April, 1920. (Public Health Reports, June 25, 1920, p. 1566.)
